

Already whispered?

whisperwool[®] starts Crowdfunding

Under the project title „**Whisperwool – eco-innovation for healthy office- and living rooms**“ we start a crowdfunding-campaign on the platform of the Public Welfare Bank on **2. Oktober 2018**. Over this way of financing we want to expand our marketing activities and accelerate our manufacturing process.

Our sheep wool acoustic panels are the healthy and ecological alternative to conventional ceiling tiles And besides, Whisperwool is beautiful!

Sustainable products are still scarce in the construction industry. With your help in the form of a mini-loan you contribute to more environmental protection and healthier living and office space.

How can I participate?

Under the link <https://www.gemeinwohlprojekte.at/projekte-unterstuetzen> you can select our project and support with an investment amount of your choice.

A description of the project can be found there. More information about Whisperwool is available at: www.whisperwool.at

How does crowdfunding work? What do I give? What do I get?

Until 15.12.2018 all interested persons / or companies can lend between € 500, - and € 5,000, - via the link above at the public welfare bank.

With at least € 50,000, - the project is allowed to start. If we stay below this limit, all investors get their money back immediately.

If we set the threshold of € 50.000, - your investment will be tied for a certain term (5 or 10 years). That is: You lend us this amount, so that we can realize our project.

Every year you receive interest rates between 4% and 5%. You can also donate some of your interest to other charitable projects. At the end of the term, you will receive your investment back. An overview of the different yield models from which you can choose can be found in the project description.

The amount you lend us is treated as a "subordinate loan". That is: If our company should become insolvent (which we do not assume), you will not get back the amount invested.

If you want to invest more than € 5,000 in Whisperwool, please contact Monika Manzl: monika@tantelotte.at

Our thank you's:

In addition to the interest, we give you a part of Whisperwool for your support.

Depending on the investment amount we will give you Whisperwool coasters, pin boards or the original Whisperwool acoustic panel. If you loan us € 5,000, - you will receive a Whisperwool acoustic panel with a special embossing or we will print it with a motif of your choice.

When can I join? What else can I contribute to success?

From **2. Oktober 2018** the platform is open and you are ready to go! Especially in the first few days, it is very important that many investors use this opportunity - that motivates others to join. You probably know many people who would like our product or who would like to use this form of investment. Therefore please forward this letter and tell about it.

We are proud of that:

We received the **Material Prize 2018** for Whisperwool (1st place in the Ecology category). This is an international construction and architectural prize that honors innovative materials.

<https://www.raumprobe.de/materialpreis/>

The Advisory Council of the Public Welfare Bank has reviewed our company for public interest criteria and found that we not only have an ecological product, but in all our processes on social justice, fair management and environmental protection attach great importance. Therefore, we may use the **public welfare seal of quality**.

We thank for your support!
